

Project Cost Management for EPCMs

Partner in a Box is designed to give premier EPC/M consulting firms an industry-standard, centralized Project Cost Management (PCM) solution that adds significant value to their value proposition and a distinctive competitive competency - at NO COST to the consulting company.

Partner in a Box: PCM in as Little as 3 Days!

- Use across major verticals including Mining, Oil & Gas, STO, and Infrastructure
- Maintain ongoing processes
- Rollout per project, or enterprise-wide
- Deliver to multiple verticals on a project basis

Are you looking for an industry-standard Project Cost Management (PCM) solution?

Searching for a competitive edge to win and manage projects?

Want a tool to efficiently plan your projects without a huge, up-front investment?

Increase Market Value

With Hard Dollar's Project Cost Management (PCM) solution, you will have the market's only centralized system that can build cost models, manage progress, and forecast completion. Be the first consultant to bring the PCM solution to the table.

Grab the Competitive Advantage

Stand above your competitors that provide non-enterprise, spreadsheet systems. Using the HD PCM solution, you will be equipped with an industry-standard, enterprise tool giving you the differentiating advantage.

Track Real-Time Progress

Update data instantly — including quantities, man hours, costs, percentage complete, EVM, and additional project-critical information.

Integrate with Primavera and MS Project

Integrate seamlessly to Oracle's Primavera, Microsoft Project, and other scheduling tools. Hard Dollar's solution allows you to maintain cost and resource load schedules, measure cash flow, and drive 'what if' scenarios from time, scope, and schedule resources.

Create a Scalable Platform

Add enterprise level management with a tool that provides a consistent, centralized database platform. Build, store, and distribute your estimating and project controls process to end-users. It's a win-win scenario providing repeatable processes with consistent results for both you and your clients.

Ensure Neutrality

Remain a neutral third-party expert, guaranteeing the integrity of your consulting expertise without the conflict of acting as a reseller.

Flexible Rollout Options

Your client can utilize the complete PCM solution on a per project, per month, per location basis — or bring the system on as an enterprise-wide solution.

Implement a Recognized Industry Standard

Delivering the HD solution to the customer automatically gives the consultant an advantage by using a centralized PCM platform that is recognized by the major industries including Mining, Oil and Gas, Shutdowns, Turnarounds, and Outages (STO), and Infrastructure.

HD Project Cost Management

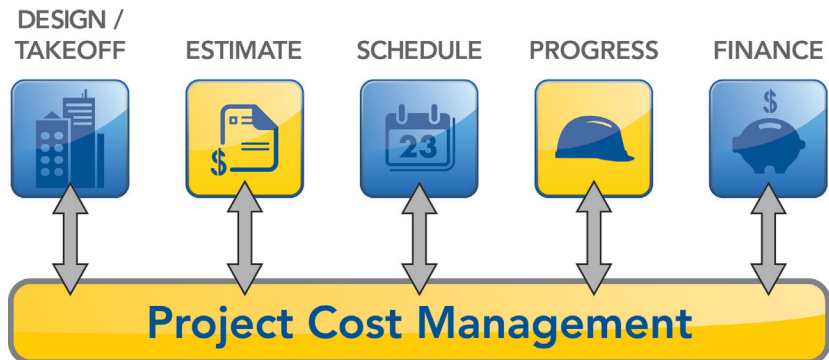

A Centralized Process for Consultants

ADVANCED FEATURES

- Centralized NORMS database with historic cost items and built-in productivity
- Record quantities completed and percent complete
- Unlimited resource-level cost detailing
- Conditional 'what-if' resource costing
- Flexible resource cost categories
- Productivity calculation and analysis
- Profit & overhead reporting
- Distribution of actual data
- Excel imports
- Standardized repeatable processes
- Team collaboration and updates

The HD Project Cost Management Solution

HD software builds costs models, manages progress and forecasts completion. No other system provides this level of flexibility and visibility across project lifecycles.

Design / Takeoff

As changes occur to the design, modifications to the estimate and schedule are automated throughout the entire cycle, recalculating the effects of design and quantity changes, and eliminating manual entry.

Progress

Track project progress and productivity with web-based progress updates. Collect timesheets data from jobsites, while sharing data electronically - eliminating double entries and standardizing data collection from other sources.

Estimate

Create detailed or conceptual estimates with third-party cost data, historical benchmarks, real-time cash flow analysis, crews and assemblies, and production rates.

Finance

Integrate with more than 35 financial and ERP systems including Timberline, Viewpoint, JD Edwards, Dexter + Chaney, Computer Guidance Corporation, Oracle, and SAP.

Schedule

Connect with Oracle's Primavera and Microsoft Project for live cost changes in estimates and schedules - keeping projects on budget and on time. Estimates and schedules are in sync throughout the project, saving calculation time and increasing project accuracy.

PROJECTFACTS®

- Web-based analytics and reporting
- Make validated business decisions with instant insight into critical information
- Leverage historical data with high, low, and average bid prices
- Eliminate hundreds of man hours spent gathering data, and assembling and distributing reports

“ Our bids using spreadsheets were 10-20% less accurate than those done in HD. ”

- Rouan duRand,
Project Controls Manager,
REDPATH
