

# E201 - ADVANCED PROJECT MODELING AND ESTIMATING

## Overview

The E201 advanced class is designed to build on the foundation learned in the E101 course. The objective is to take user productivity to the next level through tips, tricks and best practices. This course also includes useful information that will cover different ways to become more productive. We will cover in detail:

- The Estimating Process
- Full BidWizard Functions
- Resources and Assemblies
- Copy/Paste Functions
- The Quote Process
- Using 3rd Party Data Sources
- Reports
- Excel Integration
- Scheduling Integration

## Certification

After successful completion of the E201 course you will receive HD certification and may be eligible for 16 – 20 hours of PDU's towards maintaining your Project Management Institute (PMI) certification. Contact the PMI for more information.
